- Summer Camps** Necessary supplies for these educational experiences and Includes scholarships for underserved youth in the surrounding communities.
- Turtle Nests** Helps with all the supplies we need to protect the nests, signage, staking and roping off.
- Injured Wildlife Rescue** As with all animal rescues there is expense involved with getting them the help they need.
- Bike Racks** How exciting to eventually have the wide pedestrian path running from Bonita all the way to Fort Myers Beach! With more and more E-bikes, we have many bike riders using them for transportation. We want to do something creative!

We have many volunteer opportunities as well!

Help us "Preserve, Protect and Support" the wonders and beauty of Lovers Key!
